

# Global Student Challenge

## OUR CODE OF CONDUCT

Respect these rules at all times before, during and after the event. If Inchange, in its sole discretion, suspects violation of one or more of these rules, you and your team will be disqualified from the Global Final.

1

**Be respectful!** Jokes, insults, and/or opinions which are unappreciated about race, sex, cultures, ethnicity are not allowed

2

**Participate!** You are obligated to participate all days in every activity. Be sure to contact your University in advance to report absence from school obligations.

3

**No cheating!** It is not allowed to talk with professors, mentors, educators, or whosoever for advice about the game, and/or anything related to the decision(s) to make.

4

**Be on time!** The Global Final will be an online event. As we have teams participating in different time zones we are on a tight time schedule. Be present before start time!

5

**Feel free to ask questions.** We are all here to learn and you have an amazing opportunity to learn in a unique interactive way. Don't wait silently in the background. Let your voice be heard!

6

**Identify yourself.** We are with a lot of people from different countries. Please, start with your name, team name and University, when interacting.

7

**Be inclusive!** Building an international network that will last a lifetime is your goal. Be open and reach out to new people.

8

**Participation = Pro-activeness.** Come with a positive attitude and be pro-active in all activities. The best teams are the pro-active ones.

9

**Be polite.** Don't talk over another speaker. Try to speak one at a time so that we can follow your point in its entirety

10

**Attack the problem, not the person.** There will be differences of opinions. Discussions are fun but challenge the idea - not the person.
